

New Grey Sandstone

New Grey Sandstone – Dark, Medium, Light

New Grey Sandstone is a hard and very dense solid color stone with moisture absorbency of less than 1%.

There are three solid colors – light, medium and dark.

It is suitable for both residential and commercial, interior and exterior applications.

This product is special order.

- Finishes – polished, honed, brushed, custom.
- Slabs – 2cm
- Tile – 12x24, 24x24
- Cut to Size – 2x4, 2x6, 3x3, 3x6, 4x4, 4x8, 4x12, 6x6, 6x12, 6x24, 8x8, 8x24
- Thresholds and Base with variety of edge details
- Mosaics – stacked, running bond or herringbone 1x1, 1x2, 1x3, 1x6
2” hex, 3” hex, 4” hex, 6” hex, 12” hex, 2x8 Herringbone, 2x8 Chevron
- Profiles – Base, Modern Chair Rails, Box Liners, Dome Liners

Technical Data	
Water Absorption	.87%
Bulk Specific Gravity	164.4 Lbs/Ft ³
Modulus of Rupture	3,069 PSI
Compressive Strength	29,581 PSI
Flexural Strength	2,107 PSI
Flexural Strength after 56 Freeze Thaw Cycles	2,480 PSI
Frost Resistance	All specimens remain intact
Abrasion Resistance	48.9 Ha
